

## Istruzioni per costruire lo strumento

Stampa le due pagine per la **busta-copertina**, su fogli distinti.

Dopo averle plastificate uniscile tra di loro (dorso a dorso) con del nastro adesivo lungo tre lati, chiudendo invece quello dove dovrà aprirsi la busta con del velcro.

Stampa invece le pagine delle schede-nota in fronte-retro, in modo che dietro ad ogni pentagramma vada il nome della nota.

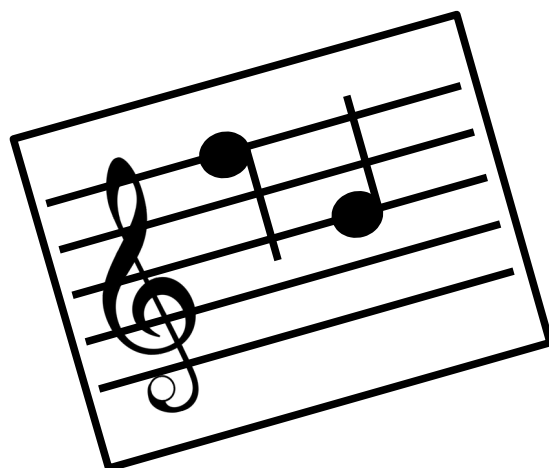

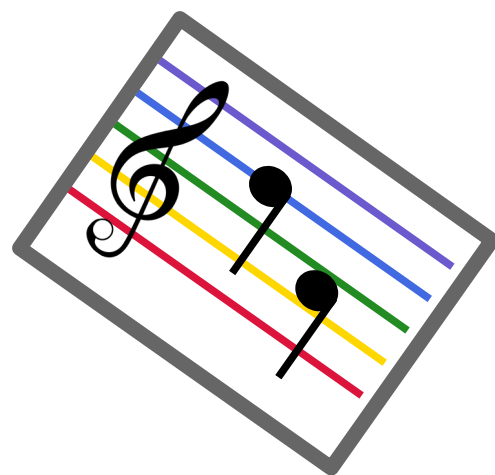

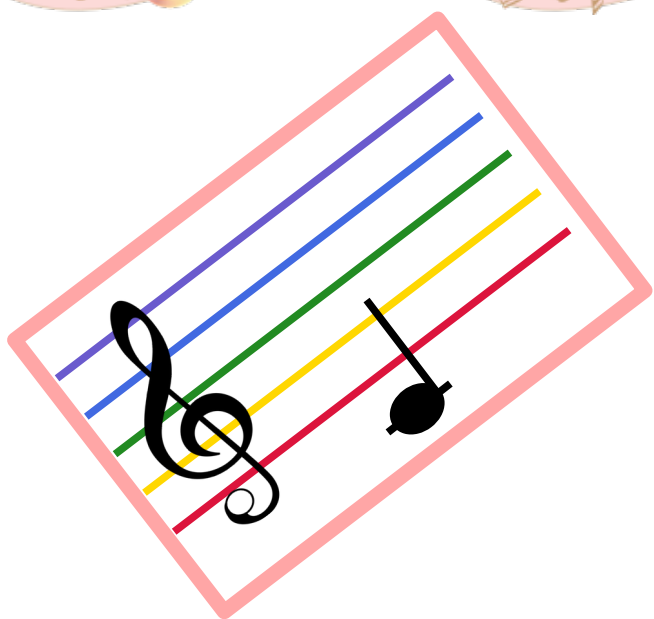

Plastifica i fogli e poi tagliali separando le 8 carte.

Inseriscile nella busta-istruzioni.

# Caccia alla nota

# Istruzioni

- prendi una carta-nota
- osserva bene il pentagramma e riconosci la nota
  - ✓ attenta/o, se si tratta di una nota 'alta' devi dirlo
- controlla dietro se hai detto bene
- prendi un punto per ogni nota indovinata

Il gioco è organizzato in quattro livelli:

- |   |   |
|---|---|
|  | 1° livello: solo note di base (un punto ognuna)                     |
|  | 2° livello: solo note 'alte' (un punto ognuna)                      |
|  | 3° livello : due note da riconoscere (un punto ognuna)              |
|  | 4° livello: pentagramma nero (due punti per ogni nota riconosciuta) |

- Comincia con il primo livello, poi aggiungi le carte del secondo e alla fine anche quelle del terzo.
- Quando ti senti davvero sicuro... lanciati sul 4° livello
