

# Che triangolo sono? – istruzioni per la realizzazione dello strumento

Stampa le due pagine per la **busta-copertina**, su fogli distinti. Dopo averle plastificate uniscile tra di loro (dorso a dorso) con del nastro adesivo lungo tre lati, chiudendo invece quello dove dovrà aprirsi la busta con del velcro.

Stampa invece le pagine dei triangoli in fronte-retro, in modo che dietro ad ogni triangolo vada la propria descrizione. Plastifica i fogli e poi tagliali a metà per separare le singole schede-triangolo. Inseriscile nella busta-istruzioni.

# Istruzioni

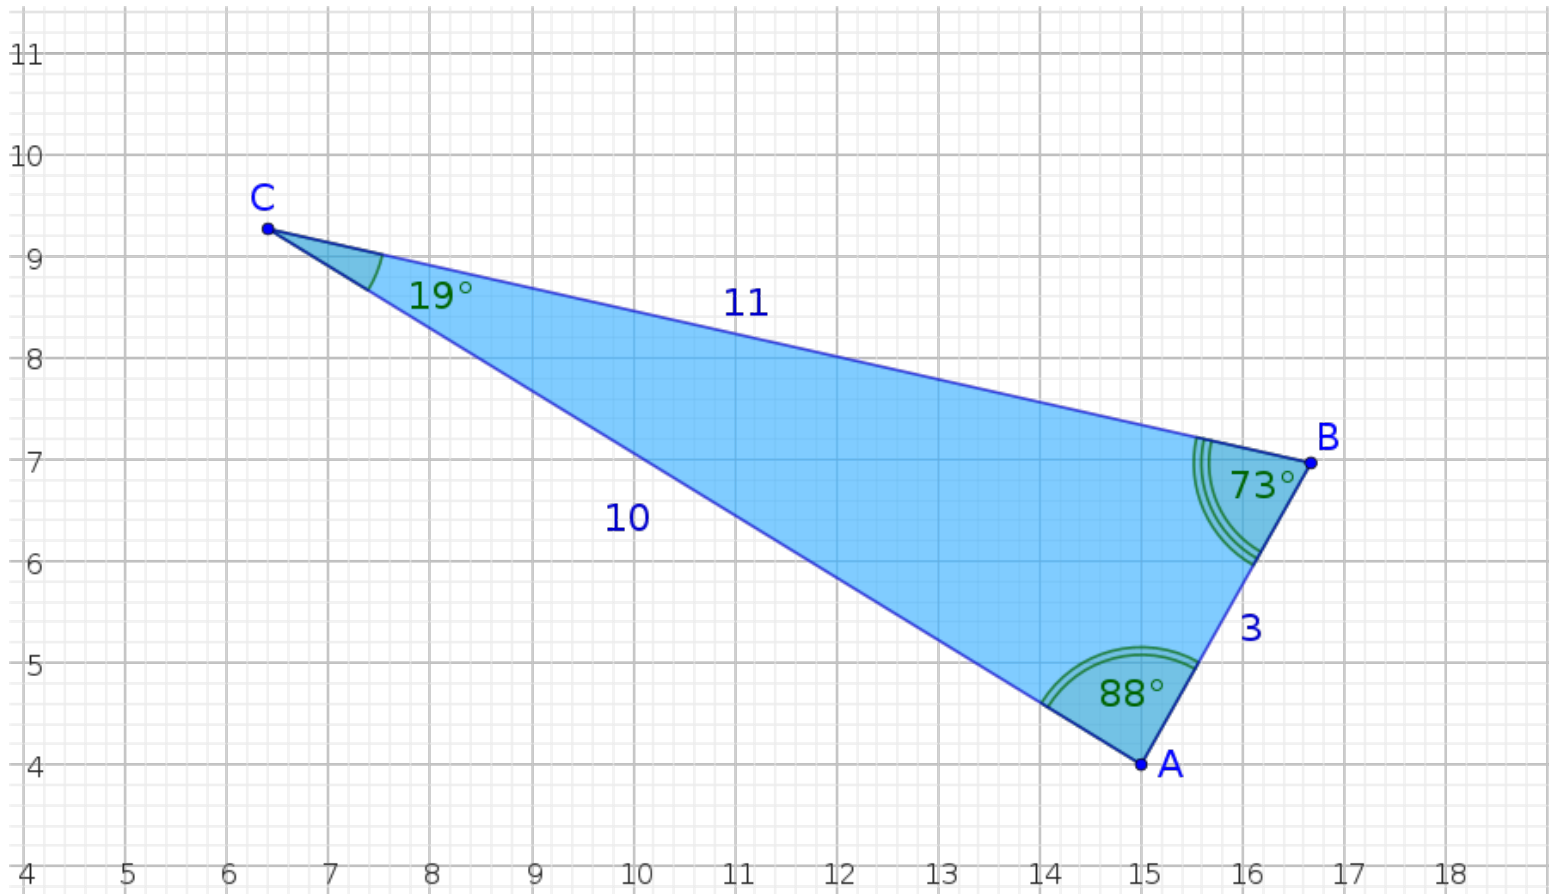

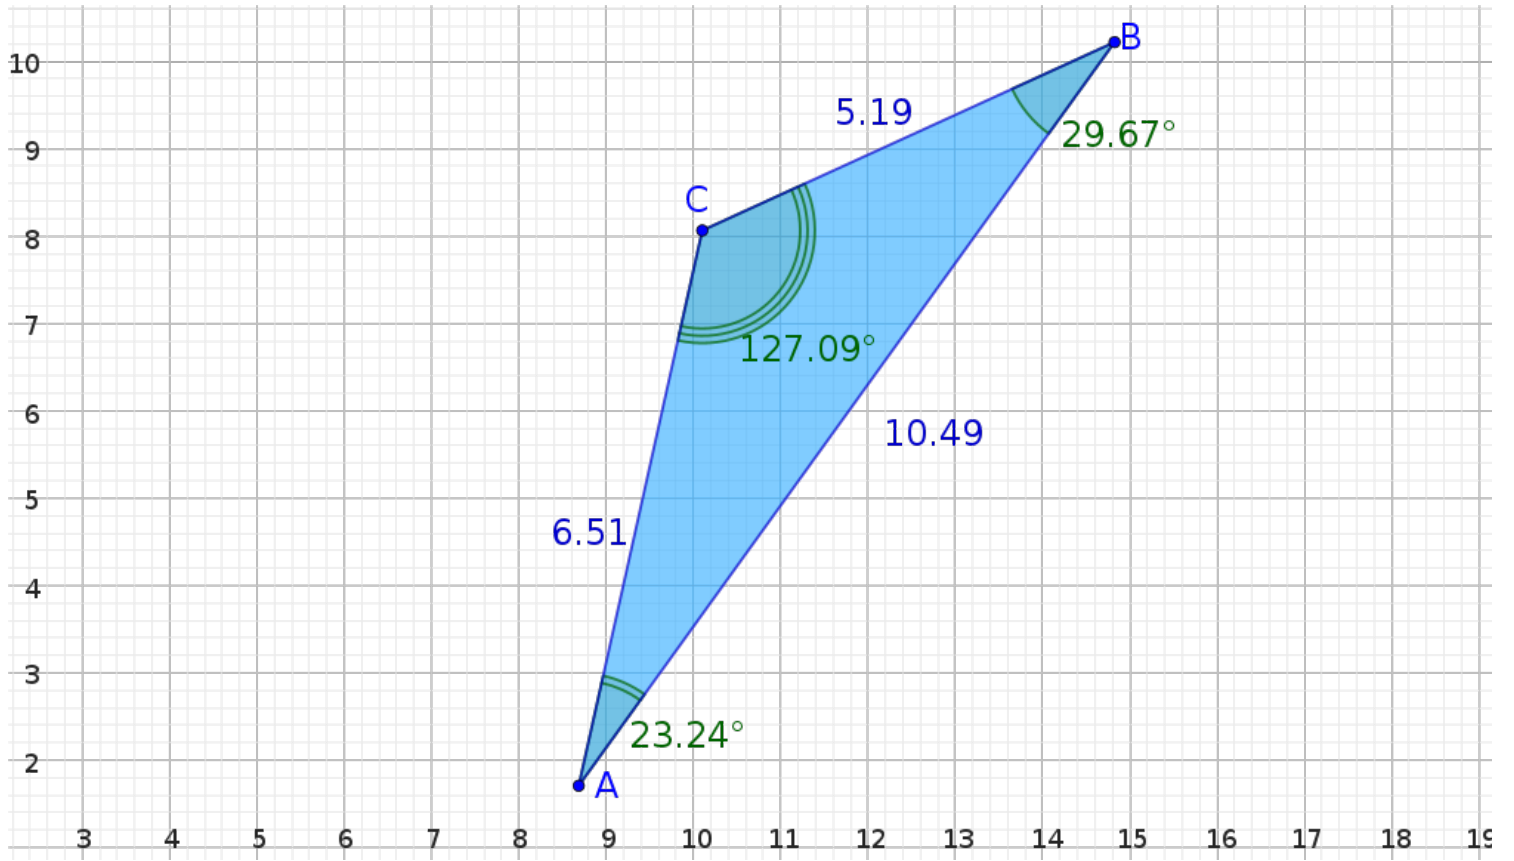

- Pesca una scheda-triangolo;
- osserva bene i lati e gli angoli;
- scrivi sul quaderno la classificazione del triangolo usando tutte le parole che lo descrivono tra:
  - ✓ equilatero, isoscele, scaleno
  - ✓ acutangolo, rettangolo, ottusangolo;
- verifica se hai scritto bene, girando la scheda;
- prendi un punto per ogni classificazione corretta.
